all outlines and details			

French knots in one strand

●	310	403	2400
eyes, nostrils			

For perfect results, we suggest you stitch the farm alphabet in DMC threads on 14 count aids, 14 count vinylweave and 3in aids band

Pictures stitch count	Design area
44 high x 44 wide	16x16cm (3 1/8" x 3 1/8")

CrossStitcher guests

"These happy sunny colourful designs are just right for a toddler's room as well as a kitchen. They could be stitched on plastic and become part of a mobile or be made up as fridge magnets too. Together with similar motifs they would make ideal designs for a book, with the name of the animal in backstitch."

Backing designs

Iron-on interfacing is perfect for backing the aids band designs. It has an adhesive side, which should be placed on to the reverse of your stitching and ironed in position. It helps to add rigidity to your design as well as hiding the reverse of your work too!
