## TOP TIP

Whenever possible each backstitch should be the same length as a cross stitch. This will give your stitching a neat and professional finish

## How to...

# add backstitch to your design

If you've not backstitched before, see page 97 to learn the basics, and build your confidence on some scrap aida first. Then, finish all the cross stitch in your actual design before doing the backstitch. With a single strand of cotton, as shown in the key, follow the chart, in a one-step back, two-steps forward motion.

## Jenny READER PANEL

“ This reminds me of a trip to a vineyard my husband and I took while on honeymoon in Jersey. I'd put it in our dining room next to our wine rack. Happy times remembered while you choose your wine! ”
