For perfect results, we suggest you stitch the mice in DMC threads on 14 count aida

## Cosy cushion

If you're after another idea to finish the design, why not make a cushion for your bedroom or bathroom? They're quick to make up but if you need some advice on how to make one, turn to page 82 and follow Zoë's step-by-step guide.

### Timesaver

Use a highlighter pen to cross off the chart as you go. It may take a few seconds to do but you'll always know where you are, which will save time in the long run.

*Our Stitcher says...*

*"I love the effect of this marbled aida - it really enhances the overall design. It's a great timesaver too!"*
